Rejuv MiraclesSM is built upon the essential concepts of Burnham Systems Facial RejuvenationSM: presence, loving intentionality, cellular communication and trust. The Rejuv Touch combines skilled hands-on sculpting of the face, neck and shoulders with the ageless healing art of reflexology and nerve rejuvenation. This transformational process allows your understanding of the energies in and around the body to deepen to a new level of expertise. These touch and energetic healing principles are taught as a complete one hour rejuvenating Natural Face-Lift session.

This process not only changes people's faces, it changes people's lives, including the lives of those who do the work.

Linda Burnham N.D., the founder and creator of Burnham Systems Studies, has professionally trained and certified Burnham Systems Facial RejuvenationSM practitioners nationwide for over thirty-five years. She is author of **The Natural Face-Lift: A Facial Touch Program for Rejuvenating Body and Spirit**.
